Tecnoglass Commences Production of Soft Coat Glass

Colombia President Juan Manuel Santos to Attend Opening Ceremony on September 10, 2015

BARRANQUILLA, Colombia--(BUSINESS WIRE)-- **Tecnoglass, Inc. (NASDAQ:TGLS) ("Tecnoglass" or the "Company")**, a leading manufacturer of architectural glass, windows, and associated aluminum products for the global residential and commercial construction industries, today announced that the Company's new soft coat manufacturing line has commenced operations. Juan Manuel Santos, the President of Colombia, and Cecilia Álvarez-Correa Glen, Minister of Commerce, Industry and Tourism, are scheduled to visit Tecnoglass' Barranquilla manufacturing complex on Thursday, September 10, 2015. They will join Company officials and other honored guests to commemorate this operational milestone.

José M. Daes, Chief Executive Officer of Tecnoglass, commented, "We are honored to welcome President Santos and Minister Álvarez-Correa Glen to Barranquilla, and look forward to sharing with them this exciting new technology. Our new \$40 million soft coat line will dramatically change the way that Tecnoglass serves our customers and addresses the growing, global architectural glass market. We remain committed to Colombia, and will continue to invest in our plant, processes, and people to help drive growth, elevate client service, and expand our global market presence."

Christian Daes, Chief Operating Officer of Tecnoglass, said, "Our initial runs show that the soft coat product we are manufacturing far exceeds our already high quality expectations. This new coating line will initially run at approximately 15% capacity, primarily to satisfy our internal requirements, with full operations expected to commence in 2016. Once at full capacity, which could take several years, this new line is expected to generate \$200 to \$250 million of additional revenues each year. We also expect to realize significant first year savings from reduced waste, along with improving profitability."

About Tecnoglass

Tecnoglass is the #1 architectural glass transformation company in Latin America, providing hi-spec glass, windows and aluminum products for the global residential and commercial construction industries. Headquartered in Barranquilla, Colombia, Tecnoglass operates out of a 2.3 million square foot vertically-integrated, state-of-the-art manufacturing complex that provides easy access to the Americas, the Caribbean, and the Pacific. Tecnoglass sells to more than 800 customers in North, Central and South America, with the United States accounting for approximately 51% of Company revenues in 2014. Tecnoglass's tailored, high-end products are found on some of the world's most distinctive properties, including the El Dorado Airport (Bogota), Imbanaco Medical Center (Cali), Trump Plaza (Panama), Trump Tower (Miami), and The Woodlands (Houston).
